

WANT FOUNTAIN ON THE SQUARE

MERCHANTS BELIEVE THAT PUBLIC DRINKING TROUGH SHOULD BE PLACED AT THE SOUTHEAST CORNER OF THE COURT HOUSE.

MAY CIRCULATE PETITION

Since the "squabble" between the councilmen regarding the location of the public watering trough, at the council meeting on Tuesday night, there has been much discussion among the Greencastle business men regarding the locating of the trough.

The general impression among the business men is that the watering trough should be placed on the square and not on a side street. The farmers and others who want to water their horses, would not like to drive two or three blocks out of their way to reach a trough, as would be necessary if it were placed off of the square.

Most of the downtown merchants believe that the trough should be placed at the southeast corner of the courthouse square. It would be easily accessible to all those who desired water for their horses. There is talk of circulating a petition and presenting it to the council at the next meeting, asking that the trough be placed on the court house corner. Should the council decide to place the fountain there it is hoped that the mayor will abide by the desire of the council and not issue an order that it should not be placed there.

VETERANS ENTERTAINED DURING CONFERENCE

The Terre Haute Tribune tells of "Methodism and Militarism" in a recent issue, as follows:

"Methodism and militarism commingled harmoniously during the Methodist conference here last week. The occasion was a dinner given by W. B. Rippetoe at his home, 516 Hancock street, Saturday night. The guests were a number of clerical delegates to the conference, all of whom were comrades of Mr. Rippetoe's in the civil war. Camp fires were relighted and many long-forgotten thrilling incidents were recalled in the reminiscent stories that followed the little banquet.

"Among the guests were Rev. and Mrs. W. P. McKinsey, Rev. and Mrs. W. H. Hickman, and Revs. W. H. Fertich, David Handley, H. A. Gobin, William A. Smith, Horatio N. Ogden and N. A. Chamberlain.

During the armed engagement between the north and the south the Rev. McKinsey was first lieutenant of the 10th Indiana volunteers; W. H. Hickman was a private in Company G, 10th Indiana, then second corporal of Company D, 55th Indiana and finally a private in Company K, 39th Indiana cavalry. N. A. Chamberlain served as surgeon in the 13th Indiana infantry; David Handley was a private in the mounted infantry, Company G, 72d regiment; W. A. Smith, private and second sergeant, and later chaplain of the 79th Illinois. W. H. Fertich was sergeant in Company G, 9th Indiana cavalry; H. A. Gobin was second corporal, Company B, 71st Indiana, and afterwards in the 6th Indiana cavalry; Horatio N. Ogden was a musician in Company B, 35th Indiana infantry, and W. B. Rippetoe was first lieutenant, Lilly's 18th Indiana battery.

ADDITIONS TO DePAUW UNIVERSITY LIBRARY.

The large library left by Miss Minnetta Taylor, deceased, has been given to DePauw University, and is to be known as the Minnetta Taylor Memorial Library.

A second gift to the DePauw University Library is made by Guy Morrison Walker, of New York City, a graduate of the class of 1890. The books given by Mr. Walker number more than a thousand volumes, some of which are quite rare. The collection includes a copious library on the subject of missions, as well as many works of value in the departments of Latin and Greek.

TO INSTALL BLOCK SYSTEM

When the Monon built the present passing track at Ladoga it was thought it would be sufficient for many years, but it is now proving inadequate and will probably have to be extended to at least twice its present length. The freight traffic over the road has grown to such an extent that trains of seventy to eighty cars or even more are not uncommon and a train of about thirty-five cars is about all that can be accommodated in the present track.

This, the middle section of the road, is an important passing point. Railroadmen say that the passing track should be extended at least to beyond the high grade north of town. Many of the heavy freights have great trouble in getting over that grade when they have to stop for the Central Indiana crossing at Ladoga. When the new block system is installed, as the law requires, the trains will not have to make the stop and it will be easier to get over the grade.

The bridge across Raccoon Creek at the south edge of town will have to be strengthened, it is said, on account of the heavy engines. The passenger trains slow down to cross the bridge.

AN AUTO STRUCK MRS. KESTERSON

RESIDENT OF GREENCASTLE THE VICTIM OF AN AUTOMOBILE ACCIDENT AT LINDEN ON TUESDAY.

HER INJURIES ARE SERIOUS

LINDEN, Oct. 11—Yesterday evening while Mrs. Kesterson of Greencastle, was walking along the road a mile and a half south of here with her daughter, Mrs. Barr Andrews, whom she is visiting, when she was struck by an automobile owned by Fielding Morin and was knocked to the roadside and both bones in one of her legs were broken just above the ankle and she was otherwise bruised. The worst injury aside from the broken leg was a bad scalp wound. Owing to her age, she is past sixty, the accident may prove serious, although Dr. J. W. Elliott states that he thinks there are no internal injuries. Mrs. Kesterson was with her daughter and they had started to walk to the latter's home after they had spent the afternoon with Mrs. James Shumaker.

Mr. Morin came up behind them in his machine and it is thought the old lady became confused and stepped directly in front of the auto. It was almost dark and for this reason it is thought Mrs. Kesterson did not see or hear the automobile until it was close behind her and became excited and stepped in the way instead of out of it. But she says this is not true and insists that she can not account for her actions. "I saw and heard the auto but for the life of me I can't tell why I stepped in front of it." The driver of the machine not expecting any move on her part was unable to avoid the mishap.

Mrs. Kesterson was not directly in front of the machine or the result would probably have been fatal, as the auto was going rapidly. In his effort to miss her Mr. Morin almost succeeded and she was struck on the hip by the fender and was knocked to one side of the road so that the auto did not run over her after she was hurled to the ground. The driver stopped as soon as possible and the injured woman was taken to the home of her daughter, which was not far, in the machine. Dr. Elliott was hastily summoned and gave her medical attention. She rested as well as could be expected during the night and the indications are now that she will recover. No blame attaches to Mr. Morin.

What of the Weather?

The weather prediction made by weather experts for October, 1911, tells of cold and snow.

A reactionary storm period falls on the 13th, 14th and 15th. Fierce autumnal thunder storms will visit many sections, with high gales over lake regions. High barometer, snow squalls and change to much colder as the culmination of these storms.

A regular storm period, covered by the autumnal and mercury periods, extends from the 17th to the 22nd. Fierce autumnal storms, with lightning and thunder during the first stages, will mark this period. Autumn rains will occur generally at this time, attended by dangerous gales. Another very decided period reaches from the 18th to the 24th, central on the 21st. High northwest winds and cooler, fair weather will follow this period.

A reactionary storm period will bring in storm changes—low barometer, cloudiness and autumnal rain. Stubborn cloudiness, persistent tendency to drizzle and sleet, snow and cold, will attend and follow these dates.

A regular storm period is central on the 30th, and extends from the 28th of October to the 3rd of November. The moon will end with weather growing warmer.

ARREST OF PRAYER HEALER AT BRAZIL

BRAZIL, Ind., Oct. 16.—The Rev. C. M. Long, pastor of the Holiness Band of Brazil was arrested today by Coroner J. Y. Smith, pending the investigation into the death of Beulah Sawyer, 3-months-old daughter of Mr. and Mrs. William Sawyer, who died Friday afternoon at the home of the parents, 509 South Depot street. Dr. W. H. Orr was called to see the child when it was but one month old, but was not called again, and it is alleged that as the Sawyers are members of the Holiness Band they were induced by the pastor to dismiss the physician and endeavor to cure the child by prayer. The Rev. Mr. Long and several of the leading members of the band deny the charge that they even asked the Sawyers to dismiss the physician and depend on prayer to save their child. The Rev. Mr. Long will be held under bond until the result of the investigation is made known.

GIRL A WARD OF JUVENILE COURT

OPAL EGGERS, 14-YEAR-OLD DAUGHTER OF MR. AND MRS. GRANVILLE EGGERS OF CARPENTERSVILLE, WHO RAN AWAY WITH MARRIED MAN, BEFORE JUDGE HUGHES.

GIVEN CHANCE TO REFORM

Opal Eggers, the 14-year-old daughter of Mr. and Mrs. Granville Bohannon, a married man, but who later returned to her home, was before Judge Hughes, sitting as judge in the Juvenile Court Thursday morning, and was made a ward of the court.

The girl, after her return, showed no remorse, and told the officers several false stories regarding her runaway experience. Among them was that she and Bohannon had been married in Louisville. This she later admitted was false.

Jasper Dalby, Juvenile officer, went to Carpentersville, Wednesday evening and Thursday morning brought the girl and her father to Greencastle. Judge Hughes probably would have sent the girl to the Reform School, had it not been for the pleading of several officers and friends of the Eggers family, who stated that the girl was ignorant, and should be given an opportunity to reform. Judges Hughes agreed to this and the girl was made a ward of the court. Her future depends entirely upon her behavior. She told the court that she would behave herself hereafter.

There are no new developments in the hunt for Bohannon. The officers are still working for his arrest and it is believed that it is only a matter of time. When he is apprehended he probably will be severely dealt with by the courts.

DEPAUW HOLDS WABASH TO TIE

METHODISTS CLEARLY OUT-PLAY SCARLET TEAM DURING THE TWO FIRST PERIODS OF GAME, ONLY TO BE OUTPLAYED IN THE LATTER HALF.

WALKER STARS FOR D. P. U.

Before a crowd, estimated at 1500 Wabash and DePauw battled to a tie in Crawfordsville Friday afternoon, neither team being able to score during the four hard fought periods. Each team expected a victory and was disappointed over the resulting score.

During the first two periods of the game the Methodists clearly outplayed their Presbyterian brethren while in the last two periods the Wabash warriors had the best of the DePauw team.

Walker and Bittles were the bright and shining stars for the Methodists, while Lambert was the whole works for Wabash. The whole DePauw team played a nice game. However, and deserves much credit for their showing. Walker by his exceptional play on both the offensive and the defensive established himself as on the grandest football players in the history of DePauw football.

Bittles, who played a nice game throughout, made himself strong with his rooters, when he started in pursuit of a Wabash player who had intercepted a forward pass, and with a clear field was headed to ward a touchdown. Bittles started after the Wabash runner, and, although he was 10 feet behind him overtook him, and, making a beautiful tackle, saved a touchdown from being scored.

During the last minute of play Wabash worked the ball to DePauw's one-yard line by two forward passes and one straight line buck. The DePauw line held when another line plunge was attempted and as the Scarlet athletes were set ready to make the last attempt, time was called and their best chance to score was spoiled.

"Skeet" Lambert's toe also failed him during the contest, and seven easy attempts at drop kicks were wild. Aside from his drop kicking he played an excellent game. Late in the game he attempted several successful runs around the DePauw ends.

The play was all in the Wabash territory during the first half, but the Scarlet came back strong and turned the tables in the second half. Play after play was directed against the DePauw line and long gains were made. End runs also brought the Scarlet players nearer the visitors' goal. When within striking distance Lambert attempted to score by his drop kicks and always failed, and DePauw would punt out from the twenty-five-yard line. Wabash would again work the ball down the field only to have Lambert fail in his attempt to score.

DePauw Line Strong.

The DePauw line played a strong game, and it would have been impossible to push the ball over for a touchdown until near the close of the last quarter, when the calling of time ended the contest. Lambert displayed great head work throughout and if he had been in his usual form Wabash would have had points to spare.

Walker, the DePauw quarterback was the main strength of his team. His long punts kept the ball away from his goal line when defeat seemed certain and his offensive work was the Methodists' only hope to score. His defensive work was of the smashing variety and aided in holding the Scarlet for downs when they were proving dangerous.

Changes were made frequently in the DePauw lineup by Coach Berndt in an effort to instill more fighting into the team and get them to force their way across the Scarlet goal.

30th Anniversary.

Friday, Oct. 13, was the 30th anniversary of the marriage of Mr. and Mrs. James Hyten, and their daughter, Mrs. Barker of New Maysville, and Mrs. Allen of Indianapolis,

planned a successful surprise in honor of the occasion. About fifty guests gathered at noon at the family home, with well-filled baskets, and those present enjoyed the feast spread, and also had a most enjoyable social time. After the refreshments there were musical numbers by Mrs. Stewart and daughter, Mrs. Ben Modlin and daughter, Eva Barker and Bernie Allen. There were present James Ball and wife, Amos Nicholson, Mrs. E. E. McClannahan, O. B. Blaydes and family, W. C. Dinsmore and family, Lige Baker and family, Thos. Ball and wife, Dave Vannice and John Ball and family.

Temperance Meeting.

The W. C. T. U. meeting at the home of Mrs. Albert Landes Tuesday afternoon, though small in number, was large in enthusiasm, and one of the best meetings of the year. Musical numbers were given by Mrs. Clay Brothers and Miss Aldred with Miss Edith Ramsey at the piano and Miss Elizabeth Landes with the violin.

After devotional exercises a short review of the year's work was given by the president, after which Rev. Beeman addressed the ladies on the temperance situation in state and nation, pointing out many things to encourage us and inspiring the union to greater effort. It is to be regretted that a greater number do not hear these addresses which are given once a month, and are well worth any special effort that may have to be made to hear them. We need your presence and help.

A \$4,500 SUIT FOR DAMAGES

RESULTANT FROM AN ALLEGED REFUSAL TO MAKE AND DELIVER DEED TO A FARM IN MONTGOMERY COUNTY.

ON TRIAL IN CIRCUIT COURT

A civil suit of more than ordinary interest is on trial in Putnam Circuit Court, His Honor, Judge James P. Hughes, presiding. The title of the suit is W. A. Parker and his wife, Lela Parker, vs. Margaret A. Carter, widow of Thomas Carter, deceased, formerly a resident of Montgomery county, but now living in Russell Township, this county, hence the filing of the suit in the Putnam Circuit Court.

The plaintiff's allege that on December 28, 1910, they contracted with the defendant, Mrs. Margaret A. Carter, for the purchase of a farm of 178 acres, situated in Montgomery county, about two and one-half miles north of the Putnam county line, on the Greencastle and Crawfordsville road, the contract price being \$21,590, and that said defendant was to make and deliver a deed therefor and complete the transfer on March 10, 1911, at the time for the delivery of the deed, as alleged, defendant refused to make and deliver the deed and transfer the farm to the plaintiff's. The Parker's had but one recourse and that was a damage suit in which the figures are placed at \$4,500. It will be noted from the figures given above, that this farm is rated as a valuable property, the alleged contract price being about \$127 per acre.

The case is to be litigated to the limit, judging from the array of legal talent employed—Jones & Murphy and Hays & Murphy are for the plaintiff and the defendant is represented by Thomas & Foley, John P. Allee and B. F. Corwin.

In the New York Independent of this week appears a long article by Will W. Lockwood, Y. M. C. A. Secretary of Shanghai, China. The article deals with the fifty young Chinese students who landed at San Francisco on September 6, last, to take up work in the various educational institutions of this country. Frank J. Vanis, a deputy from the office of the State Bureau of Inspection, was here Friday calling on the employers, who have not complied with the law passed by the last session of the legislature. The law requires every employer of five or more persons to register and a secure a license from the state. The registering fee is \$1. Although the allotted time for registering has passed the state bureau is not taking legal action against the offenders but is sending a representative to all who have not complied with the law and instructing them to secure a license at once. This will be the last notice given, however, and all those who do not comply with the law are subject to a fine for failure to do so.

Discussing the high cost of living one of our old time residents said Saturday morning that Greencastle at one time, had a market house, where farmers sold meats, vegetables, fruits, etc., directly to the people. Can not one of our readers give some light on the subject.

Another disagreeable phase of the street work developed Friday when the contractor began the preparing of Washington street in front of the court house for the stone. It was found that the tramping of horses during the wet weather had so puddled the soil in front of the Zeis grocery that it will be necessary to remove some eighteen inches of mud and fill with dry earth before the street can be rolled and crowned.

An automobile stuck in the mud to the axles on one of Greencastle's principal streets, and being pried out with rails and planks as per the accepted rules of travel in Missouri and Illinois, furnished excitement for the few citizens who failed to go to Crawfordsville on Friday. The machine was attempting to enter the Hurst garage and cut through the crust that had dried over the deep mud on Jackson street. It took an hour or more to liberate the machine.

No step taken by the state board of health in recent years is believed by the members of the board to be more important than that to provide, free of charge, "doses" of typhoid fever vaccine for use by reputable physicians who will agree to help the board in studying the effects of its use in the state. Only one other state, Wisconsin, has taken a similar step, but the Indian board expects to begin the distribution of the serum on November 1 while the Wisconsin board will not distribute any of the material before December 1.

Obituary.
Albert Reason, son of William and Louisa Carrington, was born near Putnamville, Ind., March 22, 1869; died at the Deaconess Hospital, Indianapolis, Sept. 7, 1911; aged 42 years 5 months and 16 days. He was united in marriage to Mrs. Laura B. Kesterson, Oct. 7, 1889. In the winter of 1904, under the preaching of Rev. Houser, a Presbyterian evangelist, he was converted and during the same winter, united with the M. E. church at Putnamville and the remainder of his days lived a consistent Christian life. As a neighbor, Albert was excelled by none. Among his neighbors and friends it is useless to say that Albert was respected and loved by all. He leaves to mourn his loss a wife, father, one brother, L. D. Carrington, of Putnamville; one sister, Mrs. Daisy Goodman, of Greencastle, and many other friends and relatives. He was of a quiet and unassuming disposition; never loud, boisterous or contentious; always taking up the moral side of every question, living a life it is well for us to emulate, and especially would we say to the young nephew, who has shared his uncle's home for years, remember the advice Uncle Albert has given you and pattern after his excellent character.

In our grief at our great loss of one so useful to this community, we must look to the one who doeth all things well, and remember that by walking in the straight and narrow way and placing our faith on the Great Rock, with assurance, look forward to a happy meeting at the Golden Rule.

He has fought the fight, kept the faith, finished his course, and gone to join his mother, three sisters and two brothers, who had gone on before and who are waiting to welcome him home.

Mrs. E. Shipley has returned from Terre Haute, where she visited her sister.

Dr. and Mrs. F. J. McConnell go to Boston on Wednesday, and will be away from home for a week.

THE DESPOT STOMACH

ACCORDING TO A NEWSPAPER despatch, a German surgeon has removed a man's stomach, and the patient has recovered.

This is the most glad news that the world has heard in a long time, for the one tyrant with whom it has always seemed impossible to cope, and against whom it was hopeless to rebel, has been the despot stomach. With the possibility of eliminating that, life becomes a glad, sweet song, and the whole horizon becomes flooded with sunshine and joy.

Of course, the proper sort of a stomach is always a desirable possession, and, as the fashion writers say, it is still considered good form—except among women who are not permitted by the present styles to have either hips or stomachs—but it is no longer an unnecessary adjunct. A stomach is still en regie, but not regular, so to speak.

This is cheering information, for heretofore a man's stomach has been the enemy that relentlessly pursued him from the cradle to the grave, and from whom there has been no possibility of escape. The newly arrived infant's first intimation that this is a world of woe was imparted to him by his little tummy, and from then until his stomach delivered the knockout blow that laid him in his coffin, he was in perpetual trouble with it.

As a consequence of its importance, the stomach has always enjoyed a respect we do not pay to the other organs of the body. We can never forget it. It is always in our minds, and we are forever trying to cajole it, or jolly it into doing its duty and letting us alone. Futile effort. Our hearts may be softened with pity, our heads may be turned with praise, but the stomach is insensible alike to flattery or sympathy. Its evil mission seems to be to make trouble in our minds and nothing turns it away from its purpose.

It is the arch despot. Millions cannot bribe it to do another lick of work when it decides to go out on a strike, or to behave itself in a fitting manner when royalty wants to go to sea. It is the real Nemesis who is always on a man's track, and it audits the accounts of life with unswerving justice. The gay man about town, who has lived high and rolled high, knows that though he may stifle his conscience, he cannot choke off his stomach. Some day he's got to settle his account with it and pay the price. So do those who have pursued wealth, or fame, or fashion too hotly, and in that hour though all that he had would a man give for a new stomach, yet shall he not be able to purchase one.

As a factor in human health and happiness, the importance of the stomach is not to be over-estimated. In reality, all beauty, all pleasure, all power of success are merely a matter of digestion. The pearly skin and rosy cheeks of the belle are simply assimilated beef and potatoes; armies have been defeated and the history of the world changed because the food supply gave out and the stomach had nothing in it.

The calamity howler who produces financial panics is the man whose stomach is out of order. Melancholy religions have been founded on dyspepsia by people who mistook total indigestion for total depravity.

A vegetarian is as cold and clammy and unlovable as a turnip. If you want a man to get out and hustle you must feed him. Whether life itself is worth living or not depends on the liver, and if the liver and stomach have been wrong, up to now there has seemed to be no hope. But this new discovery opens up a vista of unending promise.

We are no longer to be the victims of our stomachs. We are to be masters, and if one doesn't behave, all we've got to do is cut it out. Above all, in the millennium that is thus promised, we shall abolish the great American terror, dyspepsia. Oh, what a difference in the morning that will make!

Not alone is this so physically, but mentally, for the state of our stomachs colors all our views, and determines whether they are rose-colored or peargreen.

In the future everything will be cheerful, and we shall be good because we will feel good. No longer will we snarl over breakfast and scold the children and kick the cat because we ate a Welsh rabbit the night before.

Critics will not view plays with jaundiced eye because of the corned beef and cabbage on which they dined, and the anarchists and demagogues will have to go out of business because there will be no longer any dyspeptic audiences to which to appeal.

Optimism shall reign and pessimism perish, for we shall have no more trouble when we have no stomach troubles.

How to Avoid "Hangnails"

The more correct name for these tiny skin fringes is agnails. The skin at the base of the nail in its tendency to creep up over the "half moon" becomes easily torn. Through these little wounds the entrance of microbes results in infections that are the cause of considerable discomfort. To avoid the trouble the skin should be gently pressed back with a blunt orangewood stick at least twice a week. In cleaning the nails the stick, soap, warm water, and a nail brush are the only essentials.

YORKSHIRE PUDDING.—Yorkshire pudding will need three eggs, a half teaspoonful of salt and six tablespoonfuls of flour. Beat well, then reduce with sweet milk until a thin pour batter. Forty minutes before the roast is done pour off almost all of the fat in the pan, add the strained batter (pouring it either round or under the meat according to the rack used) and return to the oven. Bake several times with a little of the hot dripping. When done carefully cut the pudding in squares and serve it as a garnish round the meat.

DOCTORS FAILED TO HELP HER

Cured by Lydia E. Pinkham's Vegetable Compound

Pound, Wis.—"I am glad to announce that I have been cured of dyspepsia and female troubles by your medicine. I had been troubled with both for fourteen years and consulted different doctors, but failed to get any relief. After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I can say I am a well woman. I can't find words to express my thanks for the good your medicine has done me. You may publish this if you wish."—Mrs. HERMAN SIETH, Pound, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

ALLEGED FRAUD AGAINST GREEN

CREDITORS OF THE FORMER GREENCASTLE DRUGGIST WILL RESIST HIS DISCHARGE FROM BANKRUPTCY—TO MAKE A BITTER FIGHT TO SECURE \$1800.

CASE TO BE TRIED HERE

At a meeting of the creditors of Frank E. Green, held Tuesday afternoon in the office of Referee in Bankruptcy Raab, in Indianapolis, it was announced that Jackson Boyd, trustee in bankruptcy proceedings, and representing the creditors, would resist the discharge from bankruptcy of Mr. Green.

The Kiefer Drug Co., of Indianapolis, one of the largest creditors, is leading in the fight against the discharge of Mr. Green, and is furnishing most of the money to pay the costs of the action to resist his discharge.

The creditors have until Oct. 24 to file their petition setting forth the reasons why they believe Mr. Green should not be discharged. It is said that the creditors will allege fraud and will attempt to force Mr. Green to turn over to the trustee \$1800 which he testified he gave to his wife the day before he opened the business, which, a few months later, he threw into voluntary bankruptcy.

Mr. Green will have 10 days in which to file his answer to the petition of the creditors. Then the case will be tried. Judge Anderson of the Federal Court will appoint a Master of Chancery, who will hear the trial which will be held in Greencastle. It is probable that the trial will be held in the library room of the court house. It is believed that the trial will consume four or five days.

It is understood that the creditors will make a bitter fight against Mr. Green. Expert book accountants from Terre Haute and at least one other town, representing creditors, will be here this week to go over the books of Mr. Green and to secure evidence to be used in the case.

IS SAID THAT HUNTER WILL DIE

FREEL, THE MURDERER, MAKES MUSIC IN HIS CELL AND APPEARS TO BE UNCONCERNED AS TO THE HEREAFTER.

GRAND JURY SUMMONED

NEWCASTLE, Ind., Oct. 17.—The sheriff today began summoning witnesses for the grand jury investigation of the killing of his wife and wounding of Ralph Hunter by Jesse Freel. Hunter still keeps up a brave front at the hospital, but the paralysis caused by the bullet which lodged under the spinal cord is becoming more noticeable. Physicians say he may live a week or three months, but that his injuries will ultimately cause death. In the meantime, Freel continues unconcerned and plays his guitar and mandolin at the jail, while the other prisoners sing.

FREEL NOT AT WIFE'S FUNERAL

REFUSED PERMISSION TO ATTEND FUNERAL BECAUSE DEAD WIFE'S RELATIVES OBJECTED TO HIS PRESENCE.

HUNTER CONDITION CRITICAL

NEWCASTLE, Ind., Oct. 16.—Jesse Freel, who killed his wife last Friday, today was denied the privilege of attending her funeral, because her parents objected. Ralph Hunter, who also was shot by Freel, is in a critical condition from the effects of his wounds. Relatives of Freel have retained attorneys, and it is said, that a plea of insanity will be made by the defense.

The funeral of Mrs. Clara VanZant Freel, who was shot and killed by her husband, Jesse, last Friday, was held on Monday morning at the home of her parents, Mr. and Mrs. Carl VanZant, and the body was buried in South Mound cemetery.

The fourth bullet fired entered Hunter's back and injured the spine, causing him to be paralyzed from the hips down. Freel's relatives have employed former Representative William O. Barnard and William E. Jeffery to defend him, and it is believed a plea of insanity will be made.

APPLES IN FROSTY ROOM.
Hundreds of Bushels Are Already in Storage for the Indiana Show.

Five-hundred bushels of apples are now in storage at the plant of the Indiana Refrigerating Company in Indianapolis, where they are awaiting the Indiana Apple show, which opens in Tomlinson Hall on November 6. As the season advances the quantity in storage increases with the arrival of the winter crop, and it is expected that several thousand bushels will be on hand for the opening of the show. One of the largest shipments now on hand bears the name of Joe Burton, "the Indiana apple king," who has been a winner in some of the largest national shows. Arthur E. Wood, of Clayton; T. B. Newby, of Carthage; Jacob Mathias, of Wagoner; Charles Buckley, of Delphi; S. T. Robinson, of Greenwood; G. N. Moyer, of Laketon; J. C. Grassland, of West Lafayette, are only a few of the many growers who have sent their apples for the exposition. B. F. Turley, of Orleans, and E. R. Smith, of Laurel will also be large exhibitors.

The apples at the storage plant are carefully packed in boxes, baskets and barrels. They are stored by the Indiana company free of cost, which will hold them until about the time the show opens, when the exhibitors will arrange them attractively in trays, boxes and barrels and display them in Tomlinson hall for prize ribbons. It is evident that there is going to be sharp competition among exhibitors in all the classes, the growers all being anxious to win the highest honors at this first Indiana show. Each exhibitor is sending generous quantities that he may have an abundance

from which to grade for size and color when making up his displays.

"The apples are reaching us in fine shape," said William J. Hogan, president of the Indiana Refrigerating Co., "and they will be in prime condition for the show, for we are keeping them in a constant temperature of 32 degrees. New shipments are coming in every day and there will be as many apples for the show as can be taken care of in Tomlinson hall."

The Indiana Company has one of the largest plants for storage in the state and has placed one of its largest rooms at the disposal of the Hoosier apple men. Rows of iron pipe, each about six inches in diameter, extend around the room and the pipes are encrusted with half an inch of ice and frost, giving the room a mid-winter temperature.

The Indiana Apple Show Commission, appointed by the State Horticultural Society, is highly elated over the fine prospects of the first exposition. The entries are not only heavy, but several hundred of the leading Hoosier growers will attend the show for the educational features it will offer them. The show will also include an immense exposition of machinery and orchard appliances, coming from the manufacturers over the country, and Indianapolis dealers will also have extensive displays. The signs are that the whole show is going to be so large that there will be difficulty in housing it in Tomlinson hall, although it is the largest hall in Indiana.

An All Day Weighing Job.

Mr. and Mrs. George Bunten of Marion Township, spent Wednesday in Greencastle visiting friends. In talking over old times in this county Mr. Bunten told of the sale of a load of hay. At that time there were no platform scales to weigh wagons in Greencastle, and hay was sold by the load or else it was bundled up in ropes and weighed with steel-yards. Mr. Bunten brought in the hay and en route sold it to Green Burrows for \$1 per hundred pounds. Arriving at the barn, Bunten judged his load at 1,000 pounds; Burrows thought there was only 900 pounds, so steel-yards were procured and they proceeded to bundle and weigh it. It was about an all day job, and when finished it was demonstrated that either one of them was fully competent to judge the weight of a load of hay, as the load weighed 950 pounds. They could have "split the difference" and thereby have saved labor and made a fair settlement.

TO ORGANIZE A BALL LEAGUE

THE ELKS OF GREENCASTLE, BRAZIL, BLOOMINGTON, TERRE HAUTE, LINTON, AND SULLIVAN TO TRY TO GET TOGETHER.

MEET AT BRAZIL TO ORGANIZE

Representatives of the Elks' lodges at Greencastle, Bloomington, Bedford, Terre Haute, Linton, Sullivan and Paris, Ill., will be invited to attend a meeting to be held in this city some time in December for the purpose of organizing an Elks' baseball league for next season.

Some of the Brazil Elks are behind the movement and they have interested some of the Terre Haute Elks in the proposed league and it is believed that the organization will be effected at the meeting to be held in December.

It is proposed to draw up a schedule for next summer in which two games will be played each week, one on Sunday and the other about the middle of the week. A trophy of some kind will be agreed upon as a prize to be played for and it is believed that an interesting series can be arranged for next summer.

Johnny Strack and Attorney Robinson are the prime movers behind the league movement here and they are confident that they can get together a team in this city next summer that will clean up the league and walk off with the bacon. Invitations to the seven lodges which it is

proposed to incorporate in this league will be sent out in the near future asking them to send representatives to the meeting here in December.—Brazil News.

The Frost Comes Late This Year

Unless a frost comes night, which is considered improbable, the fall of 1911 will go down in the history of the Weather Bureau as exceptional because of the late frosts. Tonight is the average date for the first killing frost during the last forty-one years, according to officials of the Indianapolis branch of the bureau. No frost has been reported this fall. The earliest killing frost on the records was reported Sept. 21, 1897. Only on two occasions, however, have frosts been reported during September. First frosts usually come during October, but there has been a few years when they were delayed until November. The local forecast for tonight promises fair weather with a drop in temperature.

As workmen were endeavoring to put in place one of the large stone columns, at the new postoffice building, Tuesday, it fell and was so damaged that it cannot be used. A new column will have to be ordered from Monroe county, thus there is delay in the work as well as the financial loss to the contractor.

D'PAUW STUDENT UNDER ARREST

AT CRAWFORDSVILLE, AN OFFICER IN PLAIN CLOTHES, ARRESTED HENRY P. SMITH, AND HE GAVE BOND TO APPEAR FOR TRIAL ON MONDAY.

"COP" FAILED TO SHOW STAR

The Crawfordsville Journal of Saturday says: "Friday evening a few minutes after the Wabash-DePauw football game was concluded, Henry P. Smith, a DePauw student, was arrested on Green street for stopping his automobile after driving up to the curb from the wrong direction. Smith's home is in Terre Haute.

"The arrest occurred just after the car was stopped before the Adams express office. Smith had ordered a tire sent here for his auto when Officer Ike Waldrip, who was off duty and dressed in citizen's clothes, ordered the students to get on the right side of the street. He informed them that there was a city ordinance to this effect and that he was a policeman.

"Smith doubted Waldrip's word and asked the officer to show his star, which he was unable to do. The DePauw man was loading the tire into the auto, when Waldrip became angry and grabbed Smith by the shoulder and attempted to lead him to headquarters. Smith resisted, a few hot words were spoken on each side, and upon the stranger saying he would like to knock Waldrip's "block" off if it were not for his gray hairs, the officer drew back his arm and assumed a threatening attitude.

"Smith grabbed Waldrip's arm and after a heated conversation, climbed into the auto, which turned around and started back toward Main street. Officer Elkins had arrived on the scene by this time and he arrested the stranger. Smith made no resistance when a uniformed officer made his appearance.

"He was taken to police headquarters and pleaded not guilty. He gave \$50 bond for his appearance at the trial, which was set for Monday morning at 9 o'clock."

New Departure at DePauw.

The current DePauw Year Book, for the first time, contains the following paragraph:

"A medical fee of fifty cents a semester is charged each student. A student absent from class because of illness must report at once to any local physician he may choose. The university will pay from the medical fund physician's charges for a sum not exceeding five dollars a semester for any individual student."

This provision is an innovation that seems to be very popular and is taken advantage of to quite a big extent. At the present writing over one hundred students have taken advantage of this offer for medical service. The paragraph above quoted gives full information as to the matter under consideration, and no charges outside of the provisions therein named will be approved or liquidated.

TRUST BUSTERS WHO DONT BUST

ATTORNEY GENERAL SAYS HE BELIEVES THE HEADS OF THE COMBINATIONS DIDN'T MEAN TO DO WRONG AND SO DROPPED IMPORTANT SUITS AGAINST BEEF COMBINATION MAGNATES.

MORGAN NOT INTERESTED

While President Taft is traveling over the country making political speeches, his press bureau in Washington is working overtime sending out copies of these speeches to the newspapers under the president's official frank. On the upper left hand corner of the envelopes in which these speeches are mailed is this inscription: "White House—official business—penalty for private use, \$300." Not only has Postmaster Hitchcock let down the postal bars in this particular, but the White House virtually has been turned into a political headquarters. Clerks are busy sending out advance copies of speeches delivered and yet to be delivered by the president, while others see to it that the various press bureaus are supplied with all sorts of literature designed to help the president in his campaign for renomination.

Three Million Short.

It has just been discovered that the Washington Navy Yard is upwards of three million dollars short in its accounts. As yet, nobody has been accused of stealing anything, and the shortage is explained on the ground that the book keeping system is at fault. This system, or lack of it, has thrived under one Republican administration after another, and yet nothing so pleases the Republicans as to attempt to ridicule the Democrats for putting into operation a series of investigations designed to uncover, and remedy, such little matters as "three million dollar shortages."

One Frightened Trust.

Chairman Ben Johnson, of the Democratic District Committee of Congress, has discovered that the District of Columbia once borrowed twenty-one million dollars from the Government, and forgot to pay it back. He now proposes to collect this debt. In consequence, the Washington real estate trust is in hysterics. In the capital city the Government pays half the city expenses, hence taxes are low. Despite this fact, and the further fact that hundreds of houses are unoccupied, and property values are higher than in any other city of the size in the country. Besides the real estate dealers, the idle rich, who come to Washington and build social palaces, are calling Chairman Johnson a despot.

RALPH HUNTER MAY RECOVER

THIS IS THE NEWS COMING FROM NEWCASTLE IN REGARD TO THE RESULT OF THE SHOOTING OF MRS. FREEL AND HER ESCORT.

THREATS MADE BY FREEL

A special from Newcastle, dated Oct. 15, says: "Ralph Hunter, who was shot last Friday night by Jesse Freel, at the same time the latter killed his wife, is recovering, and will survive the ordeal despite the fact that he has four bullets in his body. The funeral of Mrs. Freel will be held tomorrow morning at the home, and burial will be at South Mound Cemetery.

"Prosecutor Evans spent today gathering evidence, and learned of letters and threats by Freel to kill his young wife as far back as July 1. In the meantime Freel is taking things easy at the County Jail. Evidently he does not realize the seriousness of his position. He was visited today by his father, W. S. Freel, formerly city engineer, also by his mother, who left the jail and went to gaze upon the features of her son's victim. Freel asked for his mandolin and guitar and this afternoon played an accompaniment to the songs sung by other prisoners.

Badly Mangled Foot.

On Friday afternoon, on Franklin street, near the northwest corner of the public square, an employee of the improvement company, named Edward Dille, who has charge of a train of wagons hauling stone for the improvement, met with a very painful accident that will disable him a long time.

Dille was engaged in uncoupling two of the wagons, when a coupling snapped asunder, and his foot was caught. A portion of the coupling penetrated his foot under the arch inflicting an ugly wound that may prove quite serious.

Mr. Downey and a number of workmen carried the injured man to Dr. McLaughlin's office, where he was given surgical attention.

Smith Drew \$11 Fine.

Henry P. Smith, the DePauw student, who was arrested last Friday evening for stopping his car on the wrong side of the street, was tried Monday morning before Mayor Wert. He pleaded guilty and paid his fine which amounted in all to \$11.—Crawfordsville Journal.

CYCLONE STORM WORKS HAVOC

HENDRICKS AND MARION COUNTIES VISITED BY A DESTRUCTIVE WIND STORM ON SATURDAY, IN WHICH MANY BUILDINGS WERE WRECKED.

FORTUNATELY NO LIVES LOST

Den Davis, a village, between this city and Indianapolis, was swept by a cyclone, Friday evening, and much of the place was destroyed. Buildings were razed to the ground, trees were twisted in twain, stock was killed and injured and people were tossed about and carried hither and thither by the freakish wind, but fortunately no lives were lost. The sufferers, made homeless by the storm, shed tears and would not be comforted, as they surveyed the wreck and ruin around about them.

In Hendricks county there was also great damage. According to those who observed it first, the "twisted" formed near Reno, where it wrecked several houses. As it approached Danville it took on a funnel shape and seemed to be traveling at the rate of fifty miles an hour. The lower end of it looked like the neck of a balloon bag after a parachute had cut loose from it. A strip between Rena and Danville was swept and several houses demolished. Barns were overturned and trees blown across public roads.

Reaching Danville, the cyclone passed directly through the southern edge of the town, leaving wreck and ruin in its path. Part of Sheriff John Adler's home was unroofed outhouses carried away and trees strewn about. John Stevens's house was unroofed and part of the debris dumped onto his supper, which was steaming on the table. Part of the public school building was unroofed and the lawn covered with tree tops and trunks. Eustace Homan's barn was twisted off its foundation and cement posts broken off like reeds. Three miles east of Danville, Samuel Jordan's barn was blown to pieces and five calves killed. Several of his horses ran away and have not been found.

That no lives were lost seems like a miracle, but several severe injuries resulted. Postmaster C. P. Hornaday was picked up on the street and hurled into a neighbor's house unceremoniously, bruising him to a considerable extent.

FLOWING AN ACRE IN FOUR MINUTES.

LAFAYETTE, Ind., Oct. 16.—The world's record in plowing was eclipsed at Purdue university today, when three traction engines hitched to one unit of fifty plows turned over a stubble field at the rate of an acre every four minutes and fifteen seconds. The demonstration of the new Oliver plow, the largest ever built, drawn by three Rumely tractors, attracted a large crowd of spectators, there being many visitors from distant points to witness the demonstration.

The former record for time in plowing an acre was made during the motor contest at Brandon, Manitoba, in 1909. In this trial was used a 25-horse power Rumely steam engine and a 140-bottom plow, cutting sixteen feet four inches, running the engine without a governor belt. He speeded it up to 3.99 miles an hour and plowed an acre in 7 minutes and 35 seconds.

SHOOTS HIS WIFE AND HER ESCORT

RALPH HUNTER OF CLOVERDALE PROBABLY WILL DIE A RESULT OF WOUNDS INFLICTED BY JESSE FREEL, OF NEWCASTLE, FRIDAY NIGHT—SLAYER SURRENDERS TO POLICE.

JEALOUSY CAUSE OF CRIME

NEWCASTLE, Ind., Oct.—2:30 a. m.—(Special to The Herald.)—Jesse Freel, 25 years old, a member of the city engineering corps, about midnight shot and fatally wounded his pretty wife, Clara Freel, 23 years old, who died at 1 o'clock this morning, and inflicted wounds which will prove fatal upon the person of Ralph Hunter, a well-known young salesman. He had met the couple who were walking along the street.

The shooting occurred in a densely populated residence district of the city and created great excitement. The Freel's were married nearly three years ago.

Soon after their marriage Free disappeared, only returning a few months ago. Tonight he went toward the home of his wife's parents Mr. and Mrs. Carl VanZant, on south Parke avenue, for the purpose of seeing his baby.

Begins Firing at Once. When on his way home Free encountered his wife and Hunter. Without a word of warning he drew a revolver and began firing. Mrs. Freel fell at the second shot. The first struck her in the breast and the third passed through her head splattering brains on the sidewalk.

Hunter was shot four times and was picked up in an unconscious condition by the ambulance crew.

Free reloaded his revolver and calmly walked to police headquarters, where he surrendered, with smile playing upon his countenance. Police had been detailed on the case but had passed Free in going to the scene of the shooting.

They did not recognize him when they passed him. Upon entering the Police Station the young murderer inquired:

"Do you want to make an arrest?" City Detective Ives informed him that such was the case, whereupon Freel said:

"Get the cuffs, I'm ready to go with you, for I've just killed my wife and Ralph Hunter."

Father Hastens to Jail. He was advised to say nothing that might be used against him, and was locked up in the County Jail.

His father, William S. Freel, until a few months ago city civil engineer was at Knightstown and was notified of the act by his son by telephone. He immediately procured an automobile and arrived here at 1 o'clock this morning.

Mrs. Freel, mother of the young man, fainted when informed of the tragedy, and had not regained consciousness several hours after receiving the information.

Free and his wife had not resided together for some time, owing to domestic differences brought on by petty jealousy, it is said. The young woman was a brunette of striking appearance. Her parents are well and favorably known throughout the city.

Free is a native of Marion, Ind. He had lived here for a number of years, and was employed in the civil engineering department of the city. Hunter came here two years ago from Cloverdale, Ind., and he, too, was well known and highly respected. He was a clerk.

At 1:30 o'clock this morning physicians at the hospital said that Hunter might recover.

After the murder reliable witnesses informed the police that Free had made numerous threats not only against his wife but against Hunter as well. Although he had not lived with his wife for some time, it is said he was passionately fond of her and the baby.

Parent Witnesses Crime. The shooting occurred almost directly in front of the VanZant home. At the first shot Mrs. Freel's father rushed from the house and saw his daughter fall to the sidewalk, shot through the head. Other shots followed and Hunter also fell. VanZant made no attempt to stop Free.

When going to police headquarters Free stopped at a cigar store and told of his deed. He was advised to surrender at once and did so. When searched the deadly weapon was found in his pocket fully loaded.

The funeral of the woman will be held Sunday. When informed his

wife was dead the young engineer refused to discuss the shooting. Coroner Hiatt will begin an investigation this morning.

Hunter is the son of Mr. and Mrs. Charley Hunter of Cloverdale. Mr. Hunter is marshal of Cloverdale. The son went to Newcastle about three years ago and was employed in the store of J. N. Mitten, a former Cloverdale man. The father received a telegram early this morning informing him of the shooting. Securing an automobile he came to Greencastle, leaving for Newcastle on an early morning train. The news of the affair caused much comment in Cloverdale. The victim of the shooting was popular in Cloverdale.

What of the Winter?

Our weather reporter has been successful in securing an interview with Putnam county's expert weather prophets and as a result he has learned that the coming winter will be unusually cold. They base this prediction on the time-honored rules laid down by nature. The prophets says the moss on the north side of the beech trees is much heavier than usual. This is a sign of cold weather, and plenty of it. The squirrels are busily engaged in filling their dens with food, and woodsmen say this indicates heavy snows, with cold weather. The bones of geese, both old and young, are said to be heavier than usual and the down thicker. The goose bone is one of the best known methods of prediction in rural districts.

In addition to all these signs, it is said the wool of the sheep is heavier than it has been in years, and people who have been close enough to muskrats and other animals to examine them declare their fur is going to be thicker this winter than it has been in ten years.

PIMPLES ON FACE CAUSED GREAT DISFIGUREMENT

For Three Long Years, Suffered Great Deal. Cuticura Soap and Ointment Brought Marvelous Results. In Few Weeks Cured Completely.

"I was troubled with acne for three long years. My face was the only part affected, but it caused great disfigurement, also suffering and loss of sleep. At last there appeared red, hard pimples which later covered a great deal of my face. I was in a state of perpetual worry, walking the streets of any where before the public."

"I used pills and other remedies but they failed completely. I thought of giving up when nothing would help, but something told me to try the Cuticura Soap and Ointment. I sent for a Cuticura Booklet which I read carefully. Then I bought some Cuticura Soap and Ointment and by following the directions I was relieved in a few days. I used Cuticura Soap for washing my face, and applied the Cuticura Ointment morning and evening. This treatment brought marvelous results so I continued with it for a few weeks and was cured completely. I can truthfully say that the Cuticura Remedies are not only all, but more than they claim to be." (Signed) G. Baume, 1015 W. 20th Place, Chicago, Ill., May 28, 1911.

For more than a generation Cuticura Remedies have afforded the most economical treatment for affections of the skin and scalp. A cake of Cuticura Soap (25c.) and a box of Cuticura Ointment (50c.) are often sufficient. Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. Sold by Druggists, 75c. F. J. Averts Awful Tragedy.

Timely advice given Mrs. C. W. Willoughby, of Marengo, Wis., R. R. No. 1, prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a consumption cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote, "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by the Owl Drug store.

Reduced Rates to Mammoth, Cave, Kentucky.

The Monon Route will sell tickets at \$8.65 the 'round trip. Tickets will be on sale October 4th, and will be good to return until October 15th. For further information call on Monon ticket agent. D & W04

Don't trifle with a cold is good advice for prudent men and women. It may be vital in case of a child. There is nothing better than Chamberlain's Cough Remedy for coughs and colds in children. It is safe and sure. For sale by all dealers.

BIGGEST BANK IN PUTNAM OR ADJOINING COUNTIES

This is something for you to think about and decide for yourself. It means that we are holding our old customers and gaining new one. This must indicate at least reasonably good business methods on our part. A large amount of our business is with people who seldom come to our office, but do their banking by mail, simply endorsing their checks and sending them in by letter. We notify them that we have credited their account. Any time our out-of-town customers want accommodations we mail them a note to sign and return for their credit.

We encourage banking by mail and give them the same accommodations as our local customers.
